There is a spacious lounge with a stone fireplace, a bow window looking onto the rear garden, and an archway to a dining area with double doors to the garden.

A doorway leads to the utility room, which contains a Glow Worm gas central heating boiler, a sink, cupboards, appliance space, and single and double doors to outside.

The staircase rising from the entrance hall has two turns before reaching the first floor landing, which has 2 loft hatches. To the left is a spacious family bathroom featuring a bath (with shower above), a WC, a wash basin and a cupboard. To the right, there is a shower room.

Bedroom 1 is a large double room with fitted wardrobes, overlooking the front garden, and there are 3 further bedrooms, 2 of which have fitted wardrobes.

To the front, a driveway provides ample off road parking. The front garden includes mature borders, a spacious lawn, and a mature tree and shrub boundary, providing a haven for birds.

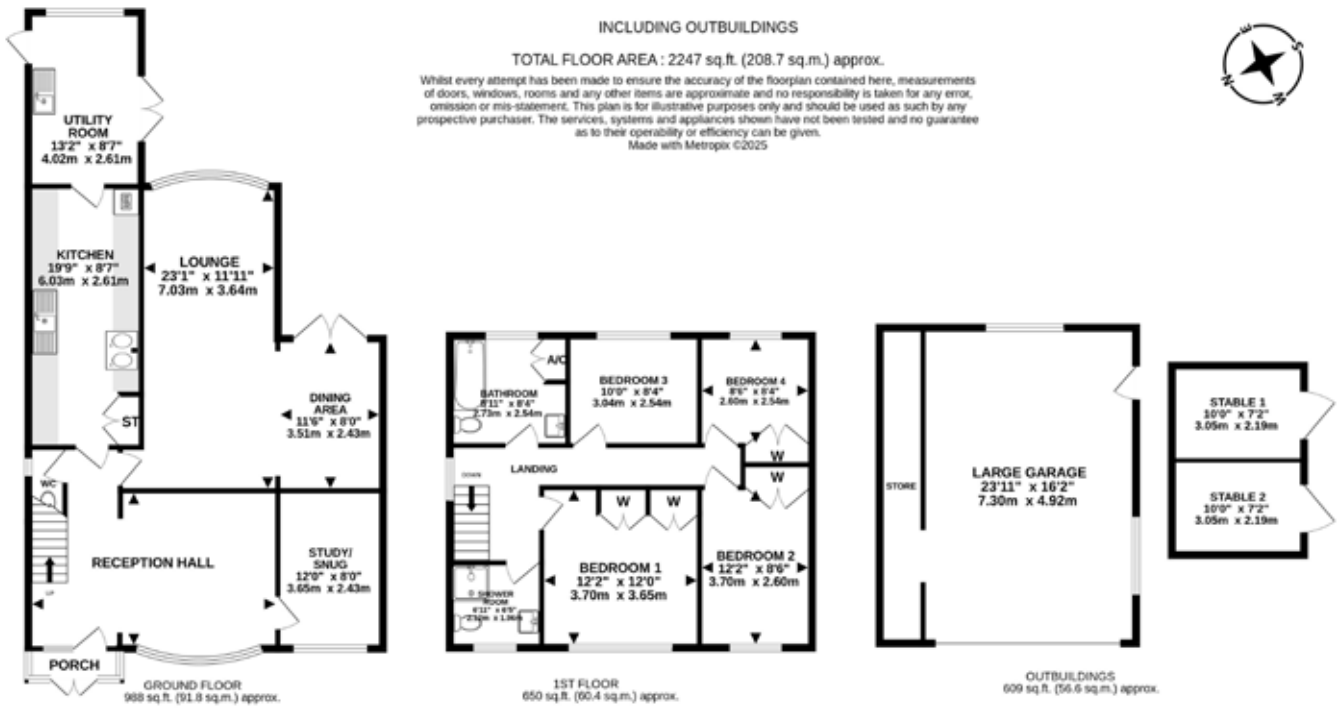

There is access on both sides of the property to the rear garden, via a brick wall and an arched timber gate to the right, leading to a rear patio bordered by a high wall and flower bed.

On the left, double gates on brick pillars lead to further secure parking and the large, brick built garage, which has an up-and-over door, rear and side windows, power and lighting. The roof was replaced approximately 7 years ago, although there are signs of shrub ingress.

A side storage area of breeze block construction can be accessed through an archway within the garage. A UPVC courtesy door leads out to a pathway giving access to further outbuildings, originally designed as stables, constructed of breeze blocks, with timber doors (not currently watertight.) There are signs of an electrical supply, but this has not been tested. In front of the stable block is a hardstanding area that leads out onto the property's lawn. There is a greenhouse in need of renovation.
